

AN AGRESULTS INITIATIVE

IMPLEMENTED BY GALVMED

Organization Information

About AgResults

AgResults is a US \$118 million multilateral initiative between the governments of Australia, Canada, the UK and US and the Bill & Melinda Gates Foundation to incentivize and reward high-impact agricultural innovations that promote global food security, health, and nutrition and benefit smallholder farmers. AgResults originated at the June 2010 G20 Summit in Toronto, where leaders committed to exploring innovative results-focused methods of harnessing private sector innovations in food security and improving productivity in developing countries. The initiative is currently running six pilots in Kenya, Uganda, Zambia, Nigeria, Vietnam, and one globally. Visit <http://agresults.org/>

About GALVmed

GALVmed, through its partners, makes livestock vaccines, medicines and diagnostics accessible and available to the millions of smallholder livestock and poultry keepers in developing countries for whom livestock is a lifeline. The international not-for-profit company harnesses the best available expertise and capabilities to develop vaccines, medicines and diagnostics for neglected livestock diseases impacting smallholders in Africa and South Asia.
